**Valhalla Community School operates classes from kindergarten to grade nine in Valhalla Centre, and is open to all students in the region**

## **What makes Valhalla different?**

- **Valhalla's program is focused and structured, featuring highly effective programs for teaching reading ("Reading Mastery"), and mathematics ("JUMP" and "Saxon" math programs).**
- **Using a Direct Instruction approach to teaching and learning, Valhalla students have regular homework and learn in a more traditional setting.**
- **Partnerships with parents are highly valued.**
- **Our Rural Leadership program, with multiple opportunities for students to develop interpersonal and leadership skills, is an important part of the Valhalla charter.**
- **Valhalla has a Playschool program for four-year olds, as well as a vibrant Kindergarten program.**
- **Valhalla has strong parent and community support, as demonstrated by the wonderful new playground built with community funds.**
